Unicart Ltd. and Yonita Inc. join forces to address cyber security threats in Bulgaria.

MOUNTAIN VIEW, Calif. & SOFIA (September 6, 2011): Yonita Inc. and Unicart Ltd. today announced that the two companies have signed an agreement to provide Web Scanner solution to domain name holders on Bulgarian market.

Yonita Web Scanner provides unique capabilities for automatic detection of vulnerabilities that can affect online application owners. A successful attack against a company's site or an online application can result in a wide spectrum of negative consequences including expenses of restoration of an IT infrastructure to its original "pre-attack" state, the cost of stolen, compromised, or otherwise degraded data, as well as loss of reputation and damage to the brand

The President and CEO of Yonita Inc., Dr. Andrzej Bartosiewicz said: *"We are happy to start cooperation with leading Bulgarian domain Registrar. Our companies focus now on providing the most advanced on-line security scanning tool for the Bulgarian community"*

Yonita Web Scanner performs dynamic verification of web applications based on automated tests generated by the Smart Test Generator and Randomized Data Generator. The main threats detected by the Smart Web Scanner are:

- Defects in authentication, authorization, and session management
- Injections, such as script injection, OS command injection, SQL injection, CRLF injection, and others
- Cross-site Scripting (XSS)
- Cross-site Request Forgery
- Defects in forward and redirect mechanisms
- Content spoofing
- Buffer overflow
- Direct object references

Service provided by REGIA.BG to their customers will include premium customer's service and full spectrum of configuration capabilities. Technical Support will be provided by Yonita Inc. from its center located in Warsaw, Poland, serving Europe, Middle East and Africa Region.

About Unicart Ltd.

REGIA.BG is the domain registrar and web hosting branch of Unicart Ltd., a top Bulgarian company working in the field of publishing, printing and IT services. REGIA.BG started in 2008 with the goal to provide domain registration in all existing TLDs and quickly became one of the top 10 domain registrars in the country and the top place for domain registration in all TLDs.

Apart from domains, REGIA.BG provides web and VPS hosting, SSL certificates and useful software.
